Our service available to you

This advice shows the most important ways of maintaining healthy gums and teeth.

If you should require any additional information about dental hygiene, please do not hesitate to contact us.

We will, with pleasure, describe in detail the aspects of dental hygiene and demonstrate the correct brushing technique.

Also, as one of the services offered by our surgery we remind you of your regular prevention appointments with a telephone call.

If you would like to make use of this service please inform one of our colleagues on reception.
